

Happy New Year From Snowy Jerusalem

On the occasion of the Fifth Eye Health Awareness Month, the Lirot Association is presenting to the public its [annual magazine regarding eye health preventive medicine](#) in cooperation with the Israeli Ophthalmology Society.

We'd like to thank Prof. Or Kaiserman, for his advice as a professional editor of the magazine.

Our purpose is to pass on information to the public with regard to innovative treatments and technologies, professional knowledge, and new research findings, for its maintaining eye health and continuing to undergo routine eye examinations.

80% of all eye diseases are treatable if are diagnosed by a doctor on time!!!

This year as well, during the eye awareness month, you can be examined free of charge in over a hundred optometrist clinics throughout the country (listed in the website of the Lirot Association: www.eyes.co.il).

Don't miss the opportunity to have yours and your family's eyesight examined.
