

Activity Summary of LIROT Association for 2018

העמותה לחקר בריאות העין
ומניעת עיוורון בישראל (ע"ר)

01

Creating a new website for the association

02

Launching a campaign and activities to celebrate the 10 years anniversary of Eye Health Awareness Month 2018

03

Continuing the Mobile Eye Care Vehicle project with new partners

04

Continuing the activities of the Lirot friends' association

05

Continuing helping the Consortium with organizing a conference for recruiting more patients in Beer-Sheva

2018

has ended with multiple and diversified activities in a number of fields specified in the enclosed report

Promoting Research for Blindness Prevention

The scientific council presided by Prof. Perlman

Management of the Consortium's research activities in retinal degenerative diseases known as Retinitis Pigmentosa (RP)

Conducting several update and report meetings with all researchers, including discussions about creating a patients database.

Continuing the relationship with the FFB which agreed to increase the funding of the Consortium's research by 300,000\$ for three additional years.

Our sincere thanks to Prof. Perlman whom without we wouldn't have reached this achievement over the years.

2018 Activities

Promoting Research for Blindness Prevention – 2018 Activities.

March

Annual congress of Israeli Society for Vision and Eye Research. Participation and award scholarship to exceptional research.

May

Seminar recruiting RP patients in Beer-Sheva. The participants donated blood tests for the Consortium's genetic mapping research.

June

Participation in the Israeli Ophthalmological Society (IOS) Congress, Awarding scholarships to exceptional researchers.

October

Participation in the Optometry Congress.

End of
the Year

Participation in a seminar with top researcher's conference in the field of Retinitis Pigmentosa (RP), presided by Dr. Miri Arenberg.

Promoting Research for Blindness Prevention

During year 2018 we continued our participation in medical congresses in which our goal was to recruit ophthalmologists to the Mobile Eye Care Vehicle project. In this congresses we distributed informative materials, the annual supplement.

We continued to provide update on global research innovations through the association's newsletters and facebook page.

10 years anniversary of Eye Health Awareness Month 2018

At the end of December we conducted a very successful campaign for increasing public awareness of the importance of performing eye checkup for at risk population and providing the public with information about the eyesight topics.

A special edition of our magazine on innovation in Ophthalmology edited by Prof. Irit Bachar in collaboration with the Israeli Ophthalmological Society (IOS).

The Eye in Art Exhibition

Sponsored by Dr. Fischer , in
ZOA , Tel Aviv presenting 30
artists who donated their work to
Lirot Association.

Articles about the campaign in Mako website and mobile app.

A video of the campaign in Artmedia (website and mobile app) with 111% performance and over half a million views.

Newspaper campaign

זו לא טעות!
אובדן ראייה עלול להפגיע בכל שלב בחיים.
אם אתם בקבוצת הסיכון:
חולי סכרת, גלאוקומה, יתר לחץ דם וניוון הרשתית
עמותת לראות מעודדת אתכם להבדק!

Two very creative ads for encouraging at risk population to conduct eye exams were placed in the Israeli newspaper "**Israel Today**" to summarize our campaign.

Promoting Eye Preventive Medicine

Continuing Lirot's Eye Health Mobile Vehicle project for the elderly in need and Holocaust survivors, run by Mr. Zidkiyahu Baruch, the project manager

After 5 years we completed our business relation with the National Insurance Institute of Israel and have continued conducting various projects around the country.

4,461 elderly were examined throughout Israel among them **2,710** with clinical findings

We managed to save the eyesight of about **15%** of the people after referring them to immediate medical care.

01

Eye examination day in the Israeli Parliament (the Knesset) with the collaboration of the Israeli medical Association managed by Dr. Viki Dai from the Israeli Ophthalmological Society (IOS).

02

The Good Deeds day in Petah Tikva with Prof. Irit Bachar.

03

A special activity with Ramat Hasharon Rotary Club initiated by Liora Gavish from Lirot's Friends Association.

04

A special poster marking 90 years of Ophthalmology was presented by the Israeli Ophthalmological Society (IOS) in participation of the Lirot's Eye Health Mobile Vehicle project.

איגוד רופאי העיניים בישראל
ISRAELI OPHTHALMOLOGICAL SOCIETY

90 שנה לאיגוד רופאי העיניים בישראל

Budgeting and government support

The activities of Lirot's Friends Association

The members of the small group are very active and meet regularly in order to help with the fundraising.

Fundraising of private donations during the holidays of 2018 was conducted by Irit Perlman.

Ramat Hasharon Rotary Club and the Ramat Hasharon Municipality were recruited by **Liora Gavish** to help with the Mobile Eye Care Vehicle project.

Lirot Association's Plans for 2019

Collaborations in the Mobile Eye Care Vehicle project - This year we will begin the Tele Medicine's project together with the Tel Aviv Sourasky Medical Center and a joint project with Migdal Or for conducting eye examinations in populations with multiple-disabilities in the north of Israel.

Fundraising for scholarship and research funds

Handling the database for the Consortium

Lirot Association's Plans for 2019

Conducting conferences for patients in Hebrew and in Arabic in order to support the Consortium.

Promoting the project "To see faraway" managed by Yossi Saidov, an RP patient who volunteers in the association and promotes this topic.

continuing and expanding the children's eye survey project in the north of Israel with government support.

Lirot Association Staff

Nadine Hollander, CEO Lirot

**Zidkiyahu Baruch, manager of the Mobile Eye Care Vehicle project and
about 120 active volunteers**

Thank you from the bottom of our hearts!!
